HYDRO 1021-E

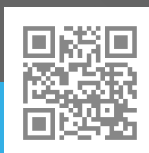

Cold water High Pressure cleaner mobile

Its ergonomics and performances allow a simple, efficient and fast cleaning for a large number of use cases.

Hydro-France designs and manufactures in France high pressure cleaners for your specific applications for over 35 years.

For any request, do not hesitate to consult us.

High pressure cleaner
cold water 100 Bar and 21 L/min,
specially designed
for all cleaning applications

STOP TOTAL :

Energy saving, limit heating of the water and wear of seals

Characteristics			
Flow Water	21 L/min (+/- 7%)		
Pressure	100 bar		
Speed rotation pump	1450 rpm		
Inlet pressure	1 to 3 bar		
Filtration requested	90 microns		
Maximum temperature	65° C		
Lubrication	Sparging		
Pump head materials	Brass		
Frame	Stainless steel 304L		
Dimension	750 x 620 x 850 mm		
Weight	approx. 60 kg		
Three-phase Electrical engine:			
Voltage	400 V		
Frequency	50 Hz or 60 Hz		
Nominal output power	4 kW		
Coupling	Direct		
Options			
Hose reel	20 m or 40 m		
Vented dual lance with rotating nozzle	✓		
Accessoires			
Hose: 10 m	Spray gun high pressure	Vented dual lance 1080 mm	High pressure nozzle
			

For any request, do not hesitate to consult us.
